

Ema Nova

Charlotte, NC | (980) 766 7325 | emanovaofficial@gmail.com | [LinkedIn](#) | [Github](#)

EDUCATION:

University of North Carolina at Charlotte (UNCC), Charlotte, NC
Bachelor's in Computer Science | Concentration: Human-Computer Interaction

Expected: May 2027

TECHNICAL SKILLS:

Programming Languages: Java, Python, JavaScript, HTML5, CSS, SQL, C/C++, CSS3, React

UX/UI Design: Figma Prototyping, UX Research, Design Systems, AI-HCI, Web Design, Mobile Design

Development Tools: Linux, Visual Studio Code, GitHub, Arduino IDE

Licenses & Certifications:

- IBM UX/UI Design Professional Certificate
- Automate Cybersecurity Tasks with Python
- Foundations Of Cybersecurity

(In Progress)
Google, Aug 2025
Google, Aug 2025

PERSONAL PROJECTS:

Clarity | UX/UI Designer

May 2026 – Jul 2026

- Designed key experiences including the AI assistant, budgeting dashboard, savings goals, subscription manager, and monthly spending reports.
- Designed an AI-powered financial education platform helping teenagers develop healthy financial habits.
- Designed low & high-fidelity wireframes and interactive prototypes in Figma.

Bowtify | UX/UI Design & Research - Part I

Jun 2026 – Jul 2026

- Redesigned an AI-powered risk management platform to improve explainability and user trust.
- Applied Human-Centered AI principles to simplify complex AI recommendations.
- Developed interactive Figma prototypes and user-centered workflows.

Artemis II Blog | UI & Front-End Developer

Jan 2026 – May 2026

- Developed a responsive React application honoring NASA's Artemis II astronauts.
- Implemented authentication using React Context API and protected routes.
- Collaborated using GitHub and Agile development practices.

WORK EXPERIENCE:

Teaching Assistant (Data Structures)

UNC Charlotte | Charlotte, NC | [Fall 2026 - Present]

- Assist students with understanding fundamental data structures and programming concepts.
- Support course activities, assignments, and technical questions related to Java/Python programming.
- Provide guidance on problem-solving, debugging, and algorithm analysis.
- Collaborate with course instructors to improve student learning experiences.

Comp Science Research Assistant

Human-Centered AI & HCI | Office of Undergraduate Research (OUR) | UNC Charlotte | [Fall 2026 – Present]

- Conduct Human-Computer Interaction research focused on designing trustworthy AI recommendation systems.
- Explore Human-in-the-Loop interfaces, explainable AI, and storytelling approaches to improve user trust.
- Develop UX/UI prototypes that investigate how engineers interact with AI-assisted decision-making systems.
- Collaborate with researchers to design user-centered AI experiences.

Comp Science Research Assistant (Bioinformatics)

UR2PHD Research Assistant | Hybrid | Charlotte, NC | [Jan 2026] - [Apr 2026]

- Analyzed genetic data to study gene transfer between yeast species (*Tortispora agaves*).
- Used BLASTp and RStudio to identify and compare genes across biological databases.
- Built gene and species trees to find inconsistencies and presented results at conferences.

LEADERSHIP & INVOLVEMENT:

Undergraduate Teaching Assistant — Data Structures:

Fall 2026

Office of Undergraduate Research Scholar:

Fall 2026

CCI Mentorship: Member

Sep 2025

Blacks In Technology (BIT): Member

Jan 2025
